

SUSTAINABLE SHOALS PRESENTS
SUSTAINABLE YOU
HERE ARE SOME WAYS YOU CAN HELP

WWW.SUSTAINABLESHOALS.WIXSITE.COM/2018

EACH DROP COUNTS

Pay attention to your water usage! Try to conserve water by taking shorter showers and turning off faucets and hoses when not in use.,

THINK OUTSIDE THE CAN

Do your part by using reusable grocery totes to minimize the use of packaging materials, recycle your plastics, and compost when possible!

REDUCE YOUR USE

Start by turning things off when they're not in use! Try to switch to more energy efficient light bulbs and purchase appliances with good energy ratings.

TRAVEL EFFICIENTLY

Go electric! Or, ditch the car for public transportation if you live in a large city. Try to carpool as much as possible to reduce greenhouse gas emissions.

USE CLEAN, GREEN ENERGY

Generate some of your own power by giving renewable energy a try! Add some solar panels to your home, or even a wind turbine!

SMALL STEPS

It doesn't take much to reduce your carbon footprint! Use less toilet paper, take shorter showers, ride share...each small step makes a BIG difference!
